

Reasonable Adjustments for ADHD

Schools have a statutory duty under Equality Act 2010 to take such steps as is reasonable to have to take to avoid substantial disadvantage to a disabled child caused by a provision, criterion or practice applied by or on behalf of a school. Most if not all children with ADHD will be deemed disabled under the Act. This is an anticipatory duty and the school is required to take positive steps to ensure that disabled pupils can fully participate in the education provided by the school. The Act permits more favourable treatment of disabled pupils. The requirement applies irrespective of whether a child has a Statement/EHC plan or not. What is “reasonable” varies according to the circumstances. The variables to be considered in assessing this include but are not limited to:

1. Existing provision being made under the SEN framework
2. School’s resources including financial and others
3. Financial cost of making the adjustment
4. The likely effectiveness of adjustment in overcoming the disadvantage
5. Practicability of the adjustment
6. Effect of the disability on the individual
7. Health and Safety requirements
8. Need to maintain academic, musical, sporting and other standards
9. Interests of other pupils and prospective pupils
